Editorial Note

I am pleased to introduce Physical Chemistry: An Indian Journal (TSPC) a rapid peer-reviewed Journal which have a key concern over the applications of Physical Chemistry by exploring the alternative spectroscopy, dynamics, kinetics, statistical mechanics, thermodynamics, electrochemistry, catalysis, surface science, quantum mechanics, theoretical developments, biophysical chemistry, chemical kinetics, colloid chemistry, micro metrics, photochemistry, quantum chemistry, solid-state chemistry, surface chemistry, surface structural chemistry, and x-ray crystallography. I am pleased to announce that, all issues of volume 14 were published online well within the time, and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

The Journals aim to flourish and to maintain the standards in research and practice, provide platform and opportunity to present evidence-based Physical Chemistry and analytical assessment of research, and probably it is much indeed for students, teachers, and professors.

All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, Directory of Research Journals, CAS, Scholar Article Impact Factor, and Google Scholar, Secret Search Engine Labs, COSMOS.

During the year 2019, Physical Chemistry: An Indian Journal received a total of 3 papers, out of which 4 articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 3 articles were subjected for publication after they are accepted in the peer-review process.

In the 2 issues of Volume 14 published during the year 2019, a total of 3 articles were published (at an average of 1 article per issue) of which, articles were published from authors all around the world. A total of 10 research scientists from all over the world reviewed the 3 articles published in volume 14. The average publication period of an article was further reduced to 14-21 days.

Physical Chemistry: An Indian Journal also announces its new association with Trade Science Inc Publishers for Archiving, Journal maintenance, financial purpose, and support. However, the journal will be running its original website <https://www.tsijournals.com/journals/physical-chemistry-an-indian-journal.html> parallel for Editorial and review work process to maintain its highest standard of scientific work.

During the year 2019, a total of One Editors, One Reviewers joined the board of TSPC and contributed their valuable services towards contribution as well as the publication of articles, and their valuable reviewer comments will beneficial to publish quality of the article in the Journal.

I would like to take the opportunity to express my gratitude to all the editorial board members, authors, reviewers, the publisher, and the advisory of TSPC, the office bearers for their support in bringing out yet another volume of TSPC and look forward to their unrelenting support to bring out the Volume 14 of TSPC in scheduled time.
