

Chemistry 2020 - Market Analysis

Grace Fernandez

The Ohio University, USA. E-mail: ernandez7527@gmail.com

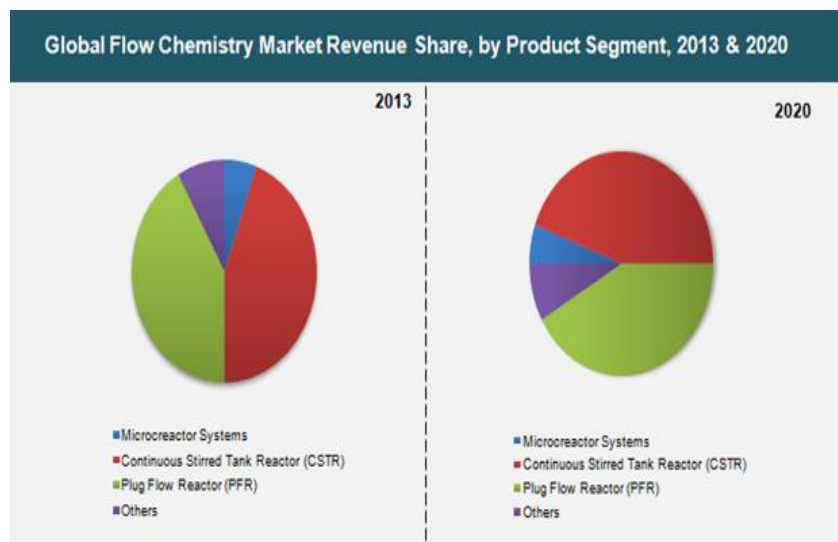

[3rd International Conference](#) on Chemistry Education and Research will be held on November 18-19, 2020 at Singapore which includes prompt Keynote presentations, Oral talks, Poster presentations and Exhibitions. Euro Materials Chemistry invites chemical professionals, researchers, professors, scientific communities, delegates, students, business professionals and executives.

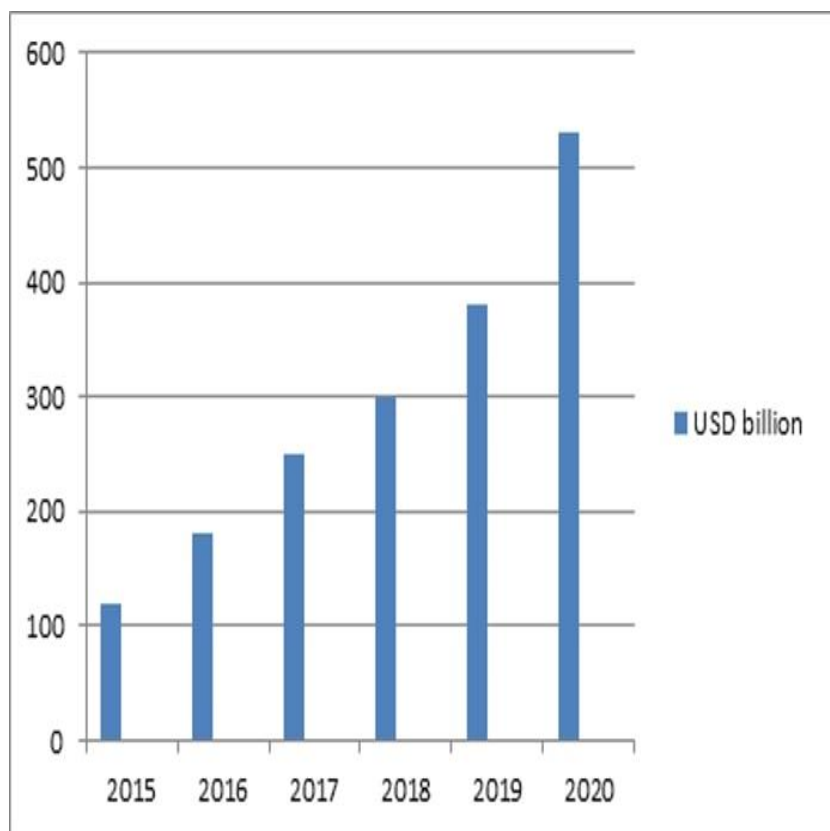

The Membranes Market is expected to grow from USD 5.4 billion in 2019 to USD 8.3 billion by 2024, at a CAGR of 9.0% during the forecast period. DuPont (US), Toray (Japan), Hydranautics (US), Koch Separation Solutions (US), and Pentair (UK) are some of the leading players with a substantial market share. New product launch, agreement & collaboration, investment & expansion, and merger & acquisition were the major growth strategies adopted by the market players between 2017 and 2020 to enhance their regional presence and meet the growing demand for membranes in the emerging economies.

Chemical production in the European Union is expected to barely grow faster than in 2016. In general, the increase in production will remain modest against the backdrop of a sluggish domestic market. We expect competitive pressure on export markets to remain intense, even though the naphtha-based European chemical industry benefits more from low oil prices than the gas-based production in the United States. Including non-EU countries, total European chemicals sales reached €615 billion in 2015, or 17.4 per cent of world output. In 2030 chemical production reach €6.3 trillion.

In 2015 Norway's chemical, oil refining and pharmaceutical industry had sales of NOK 137.2 billion (€14.5 billion), of which NOK85.4 billion were exports (62.2%). The sector employed 14,000 full-time equivalents, and generated NOK 33 billion (€3.4 billion) of added value. Official statistics treat chemicals, oil refining and pharma as a single industry.

[Conferenceseries LLC Ltd](#) is an amalgamation of Open Access Publications and worldwide international science conferences and events. Established in the year 2007 with the sole aim of making the information on Sciences and technology "Open Access", [Conferenceseries LLC Ltd](#) publishes scholarly journals in all aspects of Science, Engineering, Management and Technology journals. Conferenceseries LLC Ltd has been instrumental in taking the knowledge on Science & technology to the doorsteps of ordinary men and women. Research Scholars, Students, Libraries, Educational Institutions, Research centers and the industry are main stakeholders that benefitted greatly from this knowledge dissemination. [Conferenceseries LLC Ltd](#) also organizes 3000+ International conferences across the globe, where knowledge transfer takes place through debates, round table discussions, poster presentations, workshops, symposia and exhibitions
