After the successful completion of “[7th International Conference and exhibition on polymer Chemistry and biopolymers](#)” during August 17-18, 2020 in Paris, France. We feel honoured to welcome you to “Polymer Chemistry Congress 2020”. The congress is scheduled to happen on November 26-27, 2020 at the beautiful city of Vienna, Austria. This [Polymer Chemistry Congress 2020](#) will give you an exemplary experience and enormous ideas in the research field.

[Polymer Chemistry Congress 2020](#) provides you a great networking with peer network. Also, comprise, 10+ Keynote Speaker Session, 50+ speaker faculty over 2 full days sharing evidence Based, 5+ Workshops, 13 Interactive sessions, Mixture of Health care units and Academia Delegates, Networking provide a dedicated forum for the advancement, execution, and exchange of information about polymers. Professionals giving a chief specialized gathering to detailing and finding out about the most recent new era advancements created over the span of time alongside examining their applications. Generally acclaimed speakers, the most recent techniques, methodologies, and the most breakthrough updates in Polymer chemistry are indications of this meeting.

The perspective of [the Polymer Chemistry Congress 2020](#) is to establish research works for people to understand how the technologies in polymer chemistry get advanced and how the field get emerged in recent years.

The sessions to be discussed in the conference include Biopolymers and Bio-Plastics, Synthetic and green Polymers, 3D Printing Polymers, Bio-Catalysis in Polymer Chemistry, Polymer Science and Applications, Oils and Bio-Inorganic Materials, Biodegradable and Bio-Chemical Polymers, Polymer Engineering and Technology, and many more.

The participants who are expected to attend the conference are Eminent Scientific Professionals in Chemistry, Faculty (Professors, Associate Professors, Asst. Professors), Chemistry offering Colleges & Training Institutes, Chemistry Associations and Societies, Manufacturing Biopolymers and Conjugated Polymers Devices Companies, Students, PhD Scholars, Graduates and Post Graduates, Directors, CEO's of Companies and organizations. Association, Association presidents and professionals, Noble laureates in Health Care and Medicine, Bio instruments Professionals, Bio-informatics Professionals, Research Institutes and members, CRO and DATA management Companies, Data Management Companies.

The people who have missed attending the past International conference and exhibition on polymer chemistry are most welcome to present your research ideas in Polymer Chemistry Congress 2020. This conference will help you to improve networking with the eminent people in the field of chemistry.

In the previous Conference “[7th International Conference and exhibition on polymer Chemistry and biopolymers](#)” we had sessions on various interesting sessions/tracks. Some of them were biopolymer and bio plastics, bio conjugative plastics, bio-degradable and bio-chemical polymers, Synthetic and green polymers, etc. The Organizing Committee worked really hard to make the event great. Two of the most eminent Organizing Committee Members were Dr. Alain L Fymat who is the President/CEO and Professor in International Institute of Medicine and Science, USA and Dr. Yavuz Silay who is the Chairman of the Board, Turkey.

After this Successful Event, We are heading towards the [Polymer Chemistry Congress 2020](#) and will hope better no. and quality of presentations, Speeches.

Our organizing committee members would like to invite all the potential chemistry people (scientists, researchers, etc.) to participate in the [Polymer Chemistry Congress 2020](#) to develop and enhance the field of [Polymer Chemistry](#).

Make your footprint in the [Polymer Chemistry Congress 2020](#) to explore the Research and Advanced techniques in Polymer Chemistry in Vienna, Austria.
